PROFESSIONAL SUMMARY

Front-End Developer and IT student with hands-on experience building and shipping full-stack web applications for real clients using **Next.js, React.js, Supabase, and Tailwind CSS**. Proven ability to handle **end-to-end** development — from **database** design and **authentication** to **responsive** UI implementation. Detail-oriented and fast-learning, with a strong **problem-solving** mindset and a commitment to writing clean, maintainable code. Seeking a **Front-End Internship** to contribute to impactful projects and grow within a professional engineering team.

PROJECTS

DeQaa – Public Web Application

04/2026 – 04/2026

- Developed a production-ready public-facing website using **Next.js** and **Supabase**, serving as the client-facing front end to the internal dashboard.
- Built **dynamic** pages for lawyer profiles, legal specializations, and a blog — all powered by **real-time data** from Supabase.
- Integrated a **newsletter** subscription feature and a contact flow for booking free legal consultations.
- Achieved **full responsiveness** across all screen sizes with a clean, professional Arabic-first UI built with **Tailwind CSS**.

DeQaa – Legal Management Dashboard

03/2026 – 04/2026

- Built a full-stack internal dashboard using **Next.js** and **Supabase** for a law firm managing **100+ active** cases, covering client records, case tracking, and daily operations.
- Implemented a **three-tier role**-based access control system (Admin, Lawyer, Visitor) with Supabase **Auth** and Row Level Security (**RLS**) policies to enforce data security at the database level.
- Designed a relational **database** schema across multiple tables with proper **foreign key** constraints and secure file uploads via **Supabase Storage**.
- Delivered a fully responsive UI using **Tailwind CSS**, ensuring usability across **desktop** and mobile **devices**.

Personal Portfolio

04/2026 – 04/2026

- Designed and developed a **full-stack** personal portfolio using **Next.js** and **Tailwind CSS**, featuring dynamic project listings and contact form powered by **Supabase**.
- Built a multi-page experience including dedicated sections for skills, projects, certifications, and experience — with data managed through **Supabase Storage** and database.
- Delivered a polished, **responsive UI** from design to deployment within **48 hours**, leveraging **AI-assisted** workflows for faster iteration without compromising **code quality**.

WORK EXPERIENCE

Freelance Front-End Developer, *Freelance*

03/2026 – Present

REMOTE

- Worked directly with a **legal** firm client to gather requirements, define scope, and deliver a fully functional web system on time.
- Managed the full project lifecycle** independently — from initial **planning** and **database** design to deployment and post-launch fixes.

- Maintained clear client **communication** throughout the project, translating non-technical requirements into working features.
- Accepted into the **ITIDA × Gigs Freelance Qualification Program** (via eYouth), recognizing demonstrated freelance readiness and technical capability.
